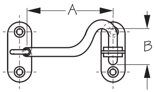
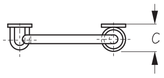
DOOR HOOK

Machined AISI 304 Stainless





All stainless steel construction provides maximum strength and corrosion resistance. A unique plastic bushing in the eye prevents accidental unhooking due to vibration. In addition, the plastic bushing reduces most of the vibration and rattling that is common with other door hooks.

Order No.	Mfr. No.	A	B	C	FASTENER

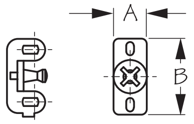
DOOR CATCH - Injection Molded Nylon



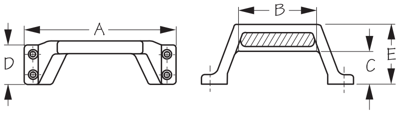
Order No.	Mfr. No.	A	B	FASTENER
422-27135 (Set)	227135-1	1/2"	1-3/16"	#6 RH

Set contains 4 each.

STEP HANDLE - Injection Molded Nylon

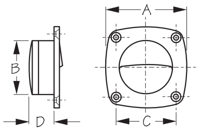
Order No.	Mfr. No.	A	B	C	D	E	COLOUR	FASTENER
422-27260 / ea.	227260-1	6-3/8"	3-1/4"	1-3/8"	1-5/8"	2-1/2"	Black	1/4" RH

These step handles can be used as a lift handle on small boat transoms and since they are molded with a contoured handle grip, the flat, textured upper surface also allows the step handle to be used as a step.

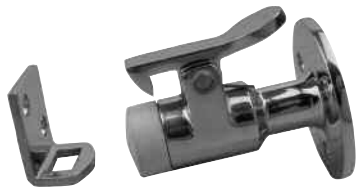


FLUSH PULL - SMALL

Injection Molded Acetal



Order No.	Mfr. No.	A	B	C	D	COLOUR	FASTENER
422-27310 / ea.	227310-1	2-3/16”	1-3/4”	1-5/8”	5/8”	Black”	#6 FH



DOOR STOP AND CATCH

Investment Cast 316 Stainless

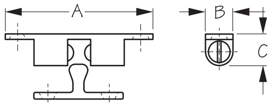
STUD CATCH

Brass Chrome Plated with Stainless Ball & Spring

Sea-Dog Stud Catches have an adjustable spring loaded ball catch that allows for easy adjustment of the holding strength of each catch depending on the door size. These stud catches have a stainless steel ball and spring and may be used for either interior or exterior applications. Strike enters three ways, from the front or from either side.



Order No.	Mfr. No.	**A**	**B**	**C**	**FASTENER**

DetMar CORPORATION

SAFETY GRAB HANDLE

This attractively styled Grab Handle may be used as an economical safety device throughout passenger areas. Molded of high impact plastic, this rugged handle has a soft leather grained vinyl covering for a comfortable, no slip grip which won't corrode or discolour in harsh marine environments. The Grab Handle mounts by through bolting with two 1/4" pan or round head machine screws. Once installed, decorative caps snap over mount holes so no fasteners are visible. Handle measures 9-1/4" long with a 6-3/4" bridge length and 1-5/8" finger clearance.

NORCOLD® COMPRESSOR PORTABLE REFRIGERATORS/FREEZERS

NEW!

AC/DC – NRF SERIES – REFRIGERATOR/FREEZER/DC/FAN

When your food and drink needs to stay cold – even on the hottest summer day! Better than a cooler! NO ICE!

Durable, energy-efficient and exceptionally quiet, these portables are perfect when you need more refrigerator or freezer space.

Features Include:

- Automatic Temperature Control
  - Electronic temperature control panel displays the internal temperature and allows the user to set desired temperature
- Indicator light alerts you to installation issues
- CFC-free insulation foam and refrigerant
- Hermetically sealed Compressor with built-in low voltage protection
- Battery protection with three settable levels prevents battery drain and automatically turns back on when voltage returns
- Turn the dial and the refrigerator becomes a freezer
- Durable and corrosion-proof plastic exterior
- Stainless steel interior prevents stains and improves cooling
- Separate refrigerator-only section prevents freezing of selected items
- Easy-access top loading
- Easy reversible and removable hinge lid
- Convenient, lift-out storage wire basket - Easy to clean
- Heavy-duty removable handles
- DC cord with cigarette lighter plug included
- Off-level operation up to 30˚
- Power Source: 120V/AC - 12-24V/DC
- Optional UL Approved AC Adapter (CC Marine Part No. 634-65000 Mfr. 634650)
- UL-Approved components
- Colour: Black/Grey
- Perfect for Marine, Recreational vehicles, Camping, Trucking, and Emergencies

For more information see: www.norcold.com

Additional features include:

- **Forgiving Incalloy® element**

Each Atwood electric water heater is equipped with a high quality 120 volt/1400 watt Incalloy® heating element designed to withstand accidental operation in an empty tank. A 220 volt/1500 watt version is also available.
The electrical system is ignition protected and meets UL specifications.

- **Safe and efficient heat exchangers**

To quickly heat water when under power, Atwood has developed efficient heat exchangers. Each heat exchanger is specifically designed for the water heater's capacity resulting in heat up times superior to competitive models. These heat exchangers ensure safety by using a unique double tube construction which prevents any possibility of engine coolant contaminating the fresh water system.

- **Corrosion resistant exterior**

The casing of every Atwood electric water heater is constructed from corrosion resistant materials and then carefully painted to stand up against the most corrosive marine environments. Special attention to detail on edges and corners helps assure greater handling safety.

- **Designed for installation flexibility**

The cubic shape and lightweight aluminum-alloy tank offers greater flexibility for water heater location in floor plans.

CREATING THE STANDARD IN THE BOATING INDUSTRY

Atwood has designed and manufactured water heaters for recreation vehicles for more than 30 years. Our engineering, manufacturing and application expertise have been honed by time and the experience of supplying millions of water heaters. Almost 20 years ago, Atwood applied this specialized knowledge to meet the needs of the marine industry. In doing so, we designed the water heaters that have become the standard in the boating industry.

PERFORMANCE

Our water heaters have been designed not only to heat water quickly and efficiently, but to also deliver every ounce of usable hot water possible from the tank. Atwood water heaters perform reliably, assuring customer satisfaction and full use of hot water benefits designed in your pleasure boats.

AquaH – MARINE WATER HEATERS

Stainless steel water heaters with dual heating as standard - electrical heating and indirect heating based on a second heat source, for example based on the cooling system from the Marine engine or generator set.
The **AquaH** Series is designed to withstand the marine environment. It is compact, easy to install and has a modern, attractive look.

SEA-B-QUE - LARGE

One of the largest and most robust stainless boat barbeques on the market. Features an 11,000 BTU burner, and comes complete with ignitor button, thermometer, porcelain wave grills, deck legs, and drip tray.
Rollaway hood with handles attached.

Cooking Surface : W11" x L20"
Dim: W28" x D12" x H14"
Weight: 26 lbs

Model No. 00-SBQ-L
ORDER NO. 850-00020

SEA-B-QUE - ROUND

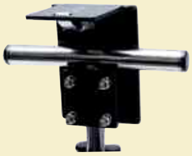
The Sea-B-Que round combines legendary quality, a tough round design, and rugged good looks that make for an unbeatable marine grill.
Super efficient 7000 BTU burner.
Complete with ignitor button, porcelain wave grills, deck legs, and drip tray.

Cooking Surface: 14.375" Diameter
Dim: W18" x D16" x H14"
Weight: 21 lbs

Model No. 00-SBQ-R
ORDER NO. 850-00030

UNIVERSAL RAIL MOUNT

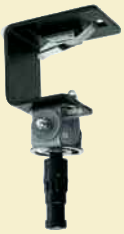
New and improved, this is a strong sturdy mount, and by far the most popular, for any Dickinson BBQ! Use with square or round rail, 7/8"-1" thick. Use on vertical, horizontal or some angled portions of rail. Fits all BBQ models, and features the quick release snap latch kit for easy removal of your BBQ.



Mfr. No. 15-150A
ORDER NO. 850-15150A

"SCOTTY" MOUNT

This kit attaches to a Scotty Type Fishing Rod Holder or instrument mount socket. It fits smaller BBQ models and features the quick release snap latch kit for easy removal of your BBQ! The universal angle knuckle allows positioning at any angle.



Mfr.No. 15-150P
ORDER NO. 850-15150P

FISHING ROD HOLDER MOUNT

A versatile mounting kit for your BBQ! Crafted from the most durable materials, the Fishing Rod Holder Mount Kit adapts to most fishing rod holders. Best for smaller model BBQ's. It also features the quick release snap latch kit for easy removal of your BBQ.
